

# PÖMA - Stone-crusher SB 182

For tractors with 3- point hitch cat.II and III, 100 – 130 KW

The PÖMA – Stone-crusher SB 182 is made for very heavy work. All kinds of stones can be crushed. The biggest diameter could be up to 30 cm.

The machine can be used for construction- and maintenance work on gravel roads. In one run the road building material is broken, mixed and graded. The depth control is made hydraulically via wheels. The mixed material is ready for final grading and compacting.

The crushing rotor has 40 fixed hammers with hardened edges of tungsten carbide for long lifetime. The frame and housing is made from best steel. The drive goes via PTO- shaft, angle gearbox, safety clutch and high performance v-belt drive. The housing is protected through easy to replace wear off plates.

<b>Specifications:</b>	Working width	1820 mm
	Total width	2000 mm
	Total length	2500 mm
	Weight	2500 kg
	Drive	1000 RPM- PTO
	Working speed	10000 – 3000 m/h
