

# PÖMA – Vibratory Plate RP240

For tractors with 3-point hitch Cat.II,  
for front- and back mounting, 80 – 120 HP

The PÖMA – RP240 is developed for compacting and smoothing of reconditioned gravel roads and for landscaping. The high impact force makes a very good job for compacting.

- **directly driven by the hydraulic system of the tractor, therefore no v-belts are necessary**
- **no vibration on the tractor because of rubber buffer**
- **for transportation just lift the 3-point linkage**
- **bolted wear off plates**

<b>Specifications:</b>	Working width	2400 mm
	Number of plates	3
	Hydraulic flow	50 l/min., 180 bar
	RPM	2000 - 2500 / min.
	Frequency	33-42 Hz
	Impact force at 2500/min.	25 KN/Plate
	Mounting	3-point hitch, front or back, cat II
	Working speed	1-3 km/h
	Weight	1.250 kg
